With a steadfast commitment to quality, T&S Brass has set industry standards for more than 60 years and introduced a number of plumbing innovations, including the market’s first pre-rinse unit and the foot pedal valve.

Today, T&S manufactures and sells faucets, fittings, and specialty products and accessories for foodservice, industrial, commercial plumbing, and laboratory markets. Its products have become the standard for the majority of U.S. hospitals, schools, restaurants, prisons, and public facilities.

At our headquarters in Travelers Rest, SC, our associates take pride in consistently delivering the highest quality products and service to our customers. We produce more than 5,000 quality products and parts that meet the requirements of the Buy American Act.

Still family owned and operated, reliability remains the fundamental principal behind everything we do. T&S sells meticulously designed and rigorously built products on nearly every continent.

Why choose T&S?

**Quality and durability.** T&S Brass products are highly recognized throughout the industry as well-built, long-lasting, and durable. Our core products, through millions of test cycles before failure, have exceeded all performance expectations and continue to meet or exceed all regulations.

**Interchangeability.** We create our parts to “mix and match,” making it easy to order the ideal product for any need. And part stocking is simplified, as there are far fewer proprietary replacement parts to keep in stock.

**Fast shipping.** Our exclusive 24-hour Quick Ship program ensures that orders received before noon are processed the same day.

**Water conservation.** T&S has been a leader in water conservation for decades. We offer water-saving components for faucets, hand sinks, and other high-use water using components.

- Bath Shower Valve/Eyewash
- Bubbler/Class Room Package
- Dipperwell/Glass Filler
- Gas Hose
- Hand Sink Faucet
- Hose Reel/Vacuum Breaker
- Pedal and Knee Valves
- Laboratory Faucet
- Lavatory Faucet
- Pantry Faucet
- Pot and Kettle Filler
- Pre-Rinse Unit/Mini Pre-Rinse Unit
- Sensor Faucet
- Service Sink/Waste Drain

Schools & Education
Schools & Education

For decades, T&S Brass has been supplying quality faucets and plumbing products to a wide variety of markets, including schools and education settings. T&S has a deep understanding of the special challenges of schools and education settings, and has a range of products to help meet these unique needs.

"Lead-free"—Legislation in several states restricts the amount of lead in plumbing fixtures to less than .25 percent. T&S makes a complete line of products compliant with these requirements, and all are suitable for use in schools.

Antimicrobial—Hygiene is an important consideration in a school setting, with parts and products that clean easily and stay more sanitary between washings. T&S makes a line of products with antimicrobial coating, keeping plumbing surfaces cleaner by inhibiting the growth of microbes that can cause illness.

Vandalism resistant—The durability and quality of T&S’s products make them ideal for high-traffic areas like schools, where vandalism or abuse can occur. T&S products are designed with durability in mind, and some products are available with locking aerators or handles to discourage vandalism.

Water and energy conservation—T&S is a leader in water conservation, providing products like pre-rinse units, sensors, and metering faucets to help schools reduce their water and energy usage. With water savings come energy and cost savings as well, because less water needs to be heated in the cafeteria or lavatory faucets.

Labs, locker rooms and cafeterias—T&S got its start creating pre-rinse units for foodservice use, but now makes products specific to a wide range of applications, including labs and education settings. T&S has quality products for labs, drinking fountains, gym showers, locker rooms, and more, to help schools meet their unique needs.

See the inside illustration to get an overview of where T&S products have been engineered to meet these needs and more in a school setting.

For decades, T&S has been supplying quality faucets and plumbing products to a wide variety of markets, including schools and education. With more than 60 years of experience in the plumbing industry, T&S has a deep understanding of the special challenges of schools and education settings, and has a range of products to help meet those unique needs.

Lead-free — Legislation in several states restricts the amount of lead in plumbing fixtures to less than 0.25 percent. T&S makes a complete line of products compliant with these requirements, and all are suitable for use in schools.

Antimicrobial — Hygiene is an important consideration in a school setting, with parts and products that clean easily and stay more sanitary between washings. T&S makes a line of products with antimicrobial coating, keeping plumbing surfaces cleaner by inhibiting the growth of microbes that can cause illness.

Vandalism resistant — The durability and quality of T&S products make them natural choices for school environments in which vandalism or abuse may occur. We test our products through millions of cycles to ensure their longevity, and use heavy-duty castings that can take abuse. In addition, some products are available with locking aerators or handles to discourage vandalism.

Water and energy conservation — T&S has been a leader in water and energy conservation for decades with various low-flow products, sensor and metering faucets, and low-leak cartridges. And with water savings comes energy and cost savings as well, because less water needs to be heated in the cafeteria or lavatory faucets.

Labs, locker rooms and cafeterias — We got our start creating pre-rinse units for foodservice use, but now make products specific to a wide range of applications, for a school setting. T&S has quality products for labs, dressing rooms, gym showers, cafeterias, and even shop classes.

See the inside illustration to get an overview of where T&S products have been engineered to meet these needs and more in a typical school setting.
Quality and durability. T&S products are highly recognized throughout the industry as tough, long lasting and dependable. Our core products through millions of test cycles before failure — far more than regulations require, and far more than our competitors.

Interchangeability. We’ve been delivering the finest in craftsmanship and service for more than 60 years. Our parts are designed to “mix and match,” making it easy to order the ideal product for any need. And part stocking is simplified, as there are fewer proprietary replacement parts to keep on hand.

Water consumption. “T&S has been committed to water conservation for decades. In our newest T&S “green line” products, we offer more water saving components than ever before, including one of the world’s highest performing and lowest water use pre-rinse spray valves.

Family owned. Although we’ve been growing for more than 60 years, we’re still family owned, helping us to move quickly to take care of our customers in a personal way that the giants can’t match.

Fast shipping. Our exclusive 24-hour Quick Ship program ensures that orders received before noon are processed the same day.
